J. Dantis Muis
Collector
in Belgaum Portion

COLLECTOR & MAGISTRATE
Hooghly
1 JUL 90
ALLAHABAD DISTRICT

No 542 of 1890

Belgaum 5th July 1890

From,

J. H. Du Boulay Esqr.

First Assistant Collector

Belgaum

To,

J. Fairlie Muir Esqr

Collector,

Belgaum District

Sir,

I have the honour to submit the Annual Report on the Administration of my charge, which is composed of the Talukas specified below and has been under me only since 20th May last

| Talukas | Area in square miles. | Population according to Census of 1881. |
|---|---|---|
| Samfgaum. | 424 2/10 | 1.19.843. |
| Khanapur | 639 2/10 | 91.826 |
| Parnigad | 632 2/10 | 79.264. |
| | 1.694 | 2.90.933. |

Previously to that date from 28th May 1889 to 2nd July last Mr Gray having charge of them. From 28th July 1889 to 17th August 1889 Mr Hervey had the charge of the Revenue and Magisterial duties of the Samfgaum Taluka and returned it to Mr Gray on 18th August 1889. Mr

Gray administered all the three
Talukas up to 31st October last and
on 1st November delivered over the
charge to Mr Hervey First Assista
Collector, who held them till 4th
May last and gave over to Mr
Gurshidappa Virbasappa District
Deputy Collector. On the 20th May
I received Revenue and Magisterial
charge of these three Talukas from
Mr Gurshidappa Virbasappa. The
charge has thus suffered many
changes of personnel.

II A return of places at which the officer in charge has resided during the year and the number of days spent at each is annexed (Appendix I) and also enclose a manuscript map of the tour.

III Revenue Jamabandi

The Jamabandi was effected during the ~~year~~ period noted below.

That of Sampgaum was carried out by yourself.

| Talukas | Commenced | Completed |
|---|---|---|
| Sampgaum | 22nd November | 6th December. |
| Khanapur | 2nd December | 20th Do. |
| Parasgad | 21st January 1870 | 13th February 18 |

IV. The results of the Settlement of the Talukas are as follows. Items arising subsequent to the preparation of the village Statements have not been included, the information required was not given to me among the administration reports passed on but the figures have been obtained from the Mamlatdars

# Local Fund

Sampaguita Municipality Province of Bataan

| Remission Alienation | Revenue for Collection | Remission Alienation | Revenue for Collection | Remission Alienations | Revenue for Collections | Surplus | Total |
|---|---|---|---|---|---|---|---|
| 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| 89 | | 2134 18 9 | | | 9902 3 1 | | 18887. 2 2 | | 8.85.971. 5 |
| 90 | | 2382 8 9 | | | 9937 7 10 | | 18926. 1 8 | | 885.984. 4 9 |
| 91 | | | | | | | | | 3331. 8 6 |
| 92 | | 699 | | | 35 4 9 | | 36 15 1 | | 3344. 8 3 |

Remissions on account of Revenue Survey Settlement have been shown for the year under report as well as the previous years where they accrued.

V. A comparison with the Settlement of last year reported in this Office No 477 dated 9 July 1890 gives a net increase of Rs. 1439-5-4. as shown below:

| Talukas | More | Less | Increase | Decrease |
|---|---|---|---|---|
| Ampgaum | 1911.5. | 1647 3. | 264 2. | ... |
| Khanapur | 766 5 4 | 222 3 | 543 2 4 | ... |
| Parasgad | 692 15. | 59 14. | 633 1. | ... |
| | 3369 9 4 | 1929 4. | 1439 5 4 | ... |

The causes of this are given in detail

on Appendix II.

The net increase includes an increase of Rs. 135_13_3 in Local Funds and increase of Rs. 1303_8_1 in Land Revenue. The last mentioned increase is principally due to the resettlement of Jadi by the Survey Department, and the revenue of Kumeri land given during the year.

VI. Takavi advances_ Thirty-two applications for Takavi advances were received during the year under report, as against fifty four for the last year and fifteen for the year before. Of these twenty eight were granted,

but in two cases the loans were not completed owing to failure on the part of applicants in appearing befor the Mamlatdar of Paraegad for the purpose of recording their receipts.

With regard to one application negotiations are still proceeding. The total amount granted was Rs. 9,900 against Rs. 4250 for last year. This does not amount to half the sum available, but it shows a steady increase, not in the number of applications, but in the number of suitable applications

During the short time that I was

doing inspection duty in the Khe
Taluka. I found that Tagai note
were as a rule posted in the Cha
but in two or three cases, I found
that the notices were kept in
boxes &c.

VII. The progress of the realization upto June 30 of the Land Revenue: not including revenue assigned to Local Fund or credited to the Public Works Department is shown in the statement below:

In the case of Sangamner Taluka

| Talukas | Demand | Collection up to 31st March 1890 | | Balance on 1st April 1890 | | Collection from 1st April to 30 June 1890 | | Balance | |
|---|---|---|---|---|---|---|---|---|---|
| Sampgaum | 300.213. | 12. | 2. 286.507. | 4 | 13.679. | 11 10 | 13.679. | 11 10 | 17 . . |
| Thanapur | 129.062. | 6. | 1. 128.609. | 5 | 8 | 613 . 5 | 613 . 5 | | 21 15. |
| Parasgad. | 236.488. | 4 | 2 151.977. | 13 | 9 | 78.480 | 9 5 | 78.480. | 9 5 . . |

the balance Rs. 17. is on account of a minor occupant. The land is uncultivated and the amount is to be adjusted as remission

The balance of Rs. 21-15- is on account of a miscellaneous item of Land Revenue, lately fixed as a demand for the current year. Rs. 7 has since been realized and the remainder will be collected in July. It has again been the case, as it was last year, but no cultivator has taken the opportunity to pay up assessment of future years in advance

## VIII. Condition & Prospects.

Twelve days personal acquaintance with one out of the three Talukas under my care, have not put me in a position to offer any remarks of much value with regard to my charge as a whole.

The rain-fall for the past year has been up to their respective averages in all three Talukas.

In Paragad there was an excess of rain in the cold weather which interfered somewhat with the crops; and in Khánapur the early

[illegible] crops by heavy [illegible]
after the evening
The water supply is a difficulty
with three Talukas. In Karanja
it is no doubt due to the comparatively
small rainfall which that Taluka
habitually receives; and must be met
by gradually digging new wells and
by keeping those already existent
in good repair.
In Khanapur the deficiency must
be accounted for in some other way,
for there is a comparatively heavy
rainfall. The cause seems to me

to lie in the nature of the soil, which is extremely porous. A number of wells have from time to time during the past few years been built in this Taluka, and in nearly all the cases which came under my observation I found them empty at the end of May.

The time of course when they are most needed. I cannot but think that they must have been built during the earlier part of the year, for then water is quickly reached and the well is considered deep enough. Or

recent cases I learnt that digging had been stopped in this way because water came on.

In Sampigaum the difficulty seems not so much to be the lack of water, as the bad state of the existant supply.

Owing to the outbreak of disease, the water of Bail-Hongal and other places was ordered to be analysed. Impurities were found in the former and steps are now being taken to remove them. Murgod water was found to be fairly pure, and Mugutkhan Hubli water is still to be analysed.

P.S.

The roads from Kolhar to Sadi and from Murgod to Saundatti appear to be in a very bad way, and the road from Khanapur to Jamboti is impassable during the monsoon, and bears are other minor roads in that Taluka. This year has not been a very healthy one; owing to the presence of Influenza. Sampgaum has especially suffered from Cholera fever & ague, and influenza.

| Talukas | 1888-89 | | 1889-90 | |
|---|---|---|---|---|
| | Attacks | Fatalities | Attacks | Fatalities |
| Sampgaum | 993 | 504 | 1700. | 618 |
| Khanapur | 130 | 88 | 19 | 5. |
| Paracgad | 1085 | 555 | 84 | 49. |

Favourable table compares the attacks and fatalities from cholera in the three talukas for the year under report, with those for the previous year. It is gratifying to note the decreased proportion of fatalities in Khanapur and Sampgaum. In the latter taluka cholera seems to have arisen in Kenganur and Jalikop and spread thence to surrounding villages In the Parasgad Taluka Saundatti (14 cases) Kellapur (14) Govankop (38) and Surangi (16) bore the brunt of the disease. In all cases proper steps seem to have been taken for supplying medicines and

preserving cleanliness through the Pat
and Chief Constables.

There were 151 cases of small-pox in
Khánápur with 12 fatalities; the latter
were confined to 14 villages.

The western part of the Khánápur
Táluka is extremely poor. The rayat
are nearly all heavily in debt to Sowk
numbers owing from 50 to 500 Rs. and a
few Rs 500 to 1,000. In many cases out
of a dozen villages, only two or three own
have receipt-books, the remainder of the
land having passed to sowkars residing
in the larger villages.

It is to be hoped that the people will gradually appreciate the benefits of forest preservation, at present they seem only to feel the hardship of forest rules. The dispensaries at Khanapur and Saundatti seem to have been appreciated and freely used. A dispensary is urgently wanted in the Sampgaum Taluka and steps are being taken to provide one at Bail-Hongal. The year on the whole seems to have been only an average one, but signs of vitality have shewn themselves in various quarters, which are I think

more valuable than mere pecuniary prosperity.

IX The comparison of the Taluka Talatis's of the past year with the daily sheets and other papers was duly completed on the dates given below, and in the manner prescribed at page 258 of the Manual of Revenue Accounts. No errors of importance were discovered.

| Talukas | Dates |
|---|---|
| Sampgaum | 20th September 1894 |
| Khanapur | 20th " " |
| Parasgad | 20th " " |

X The examinations of the Taluka accounts were effected in general accordance with the directions at pages 119 & 120 of the Manual, at the periods stated below:

| Talukas. | First examination Dates | Second examination Dates. |
|---|---|---|
| Sampgaum | 10th January 1890 | 12th April 1890 |
| Khanapur | 23rd December 1889 | 22nd May 1890 |
| Paraegad | 17th March 1890 | ——— |

The accounts and records were in good order and no errors of importance were discovered. The destruction of useless records in all three Talukas has

been completed up to date.

The destruction of useless records of 12 villages from Sampgaum and 14 from Khanapur Taluka has been completed

XI. The amount of personal inspection performed by me is shown below:

| Talukas | No. of villages | | | Rajpat receipt books examined | | Boundary marks examined | | |
|---|---|---|---|---|---|---|---|---|
| | Total No. | No. visited | No. in which accounts were examined | No. in which accounts were examined for last many villages | No. of books | No. of Khanas in villages | No. of fields | Stabilished by pillars |
| Sampgaum | 141 | 45 | 23 | 23 | 29 | 525 | 14 | 232 | 25 |
| Khanapur | 240 | 66 | 21 | 21 | 43 | 542 | 16 | 54 | 43 |
| Parasgad | 193 | 70 | 27 | 27 | 53 | 1196 | 27 | 410 | 44 |
| | 574 | 181 | 71 | 71 | 125 | 2192 | 57 | 696 | 122 |

In examining the receipt books the procedure the procedure prescribed at page 91 Manual of accounts was observed.

The number of the Patils entrusted with special powers is 11. The Mamlatdar report that they have discharged their duties satisfactorily. There have been no complaints against them. The registers of 6 of the number have been examined in the office. The total number of cases decided by them is 41.

Altogether 98 Officers were punished in various ways, out of a total of 792. The number punished last year was 100.

## § XI. The work done by A. L. Harvey Esquire First Assistant Collector Belg.

| Talukas | Villages | | | | Riśtiraujit books examined | | Boundary marks examined | | |
|---|---|---|---|---|---|---|---|---|---|
| | Total No. | Number visited | No. in which examination was commenced | No. in which work was completed | No. in how many villages | No. of books | No. in how many villages | No. of fields. | No. of Talátis whose Registers were examined |
| Sampgaum | 141 | 45 | 23 | 23 | 29 | 525 | 16 | 232 | 15 |
| Khanapur | 240 | 44 | 11 | 11 | 22 | 329 | 3 | 18 | 22 |
| Paraśgad | 133 | 70 | 27 | 27 | 53 | 1125 | 27 | 416 | 44 |
| | 514 | 159 | 61 | 61 | 104 | 1979 | 44 | 666 | 81 |

## The work done by J. H. Du Boulay Esquire First Assistant Collector Belgaum.

| Taluka | Villages | | | | Riśtiraujit books | | Boundary marks | | |
|---|---|---|---|---|---|---|---|---|---|
| | Total number | No. visited | No. in which examination was commenced | No. in which work was completed | No. in how many villages | No. of Register books | No. in how many villages | No. of fields. | No. of Talátis whose Registers were examined |
| Khanapur | 240 | 22 | 10 | 10 | 21 | 213 | 13 | 36 | 41 |

Out of the number this year 6 were fined 28 reprimanded 2 suspended and one discharged.

The majority of punishments were for minor irregularities such as not keeping registers up to date, loosing records &c. One Patil was discharged in the Khanapur Taluka for showing gross negligence with reference to the theft of some wood, one was suspended, as a criminal charge which afterwards was dismissed, was brought against him. Another Patil has been criminally prosecuted & convicted and is to be discharged.

The largest number of punishments (58) are in Karanjgad. The Mahal of Murgod being conspicuously bad in this respect.

XII. The number of cases decided by the Mamlatdars under Bombay Act III of 1876 and the results of the supervision exercised by me this office are shown.

| Talukas | No. of cases decided | No. of cases examined | No. of cases reported to the Collector |
|---|---|---|---|
| Gampgaum | 58 | 28 | . |
| Khanapur | 34 | 16 | . |
| Sir Desai of Jamboti | . | . | . |
| Karanjgad | 35 | 19 | . |
| Murgod | 4 | 4 | . |
| Desai of Sirsangi | 4 | 3 | . |

The supervision of the ~~working~~ cases shows that the work is efficiently done.

## XIII. Local Funds.

The number of Local Board meetings with the number of them attended by the Assistant Collector is shown in the accompanying table.

| Talukas | No of meetings | Assistant Collector or President. |
|---|---|---|
| Sampgaum | 3 | / |
| Khanapur | 5 | / |
| Paraygad | 6 | / |

During the short time for which I have held charge, I have had no opportunities of forming my own opinion as to the working of the Boards. But from the minutes

~~dam together~~ that the members have acted harmoniously together in every case, and have all taken part "in" the matter of inspection of the works in progress. In the Sampgaum Taluka especially is this noticeable: it would appear that they have there allotted the various works to various members, each taking a share, while the Mamlatdar himself has personally inspected every work.

This methodical manner of fulfilling their duties is I think, a hopeful

§. XIV. The work done by H. Harvey Esquire First Assistant Collector Belgaum.

| Talukas | No. of schools in each Taluka | Number of persons visited by the Assistant Collector |
|---|---|---|
| Sampgaum | 39 | 18 |
| Khanapur | 20 | 11 |
| Parasgad | 16 | 11 |
| Murgod Bahel | 13 | 4 |
| | 88 | 44 |

The work done by J. H. Du Boulay Esquire, First Assistant Collector Belgaum.

| Taluka | Number of schools in the Taluka | Number schools visited by the Assistant Collector. |
|---|---|---|
| Khanapur | 20 | 4. |

# XIV. Education.

The number of schools in each Taluka, and the number visited by the Assistant Collector and Mamlatdar respectively are shown in the statement below:

| Talukas | No. of schools in each Taluka | No. of schools visited by Assistant Collector | No. of schools visited by Mamlatdar and Mahalkari |
|---|---|---|---|
| Sampgaum | 39 | 18 | 39 |
| Khanapur | 20 | 15 | 18 |
| Parasgad | 16 | 11 | 16 |
| Murgod | 13 | 4 | 13 |
| | 88 | 48 | 86 |

In the Sampgaum Taluka a free

portion of mastery have been commended by the Deputy Educational Inspector; the results in most other cases do not seem to have been satisfactory. School work has been a good deal interfered with by the prevalence of fever and ague. At Mugutkhan Hubli the number of girls has sunk in 3 years from 30 to 4. In other places the reduction of fees has produced an increase of attendance. Thus at Hanitheri there is a rise of 10 and at Devar Shigihalli the attendance has increased from 28 to 60 in one year during

to this cause. Few school buildings have been completed at Turnari and Nagnur during the present year. At Manikeri, Devar Shigihalli, Baikur and Bacapur the villagers have shown sufficient interest in eduction to contribute or offer to contribute towards neceeeary repairs. The amounts subscribed are not, however as a rule sufficient of themselves for the object in view.

At Kittur and Sampgaum girls schools sewing is taught, at the latter place the sewing mistress receives Rs 3 per month, which seems hardly sufficient to encourage

their to such enterprises. As Bailur
Physical exercise is among the subjects,
it would I think be a great blessing
if gymnastics were more thought of among
the students of India.

There are 16 private schools - 7 registered.
In the Khánápur Tálúka Devalatti
Vandvi and Ganstigvad schools are not
doing at all well. The majority of
school buildings are in good order
and well satisfied
The school at Linganmat was in
a bad condition and consequently has
been transferred to Taker.

The Mamlatdar has only lately taken up his duties and gives this as the reason of his inability to inspect all the schools.

In the Paregad Taluka a school at Yedravi has been abolished owing to its ill success.

A good deal of activity has been shown here during the year under report with reference to the improvement of school accomodation.

In the Murgod Mahal, the Mamlatdar continues to evince great interest in this subject. He has examined 11

schools twice and three times.

At Sattegeri, Munoli and Belur the villagers have subscribed towards new buildings. The Desai of Shirsangi has offered Rs. 50 towards new buildings for a girls' school at that place.

The majority of school buildings are in good repair. The boys' school at Nurgod is doing very well, probably owing to the Mahalkari's energy.

On 2 occasions Mr. Harvey was present when the Deputy Educational Inspector examined schools.

## XV. Crops.—

In Sampgaum all the crops were about the average, except Spiked millet which only afforded a 4 annas. The weather was favourable and there was as much rain as was required.

In Paragad. Among Kharif crops, Italian millet 10 annas pigeon pea 6 annas Sugar cane 12 annas. This deficiency was principally due to an excess of rain in December in places also there was a lack of rain after the seeds had sprouted, which

caused them to wither.

Among Rabi crops.

Cotton produced a 10 anna crop, wheat 12 annas, safflower seed 12 annas, gram 8 annas, white Jowari 8 annas.

The excess of rain in ~~[illegible]~~ October was responsible for this deficiency. the rains of the latter month doing especial damage on black soil

In Khánápur

Among Kharif crops, Paddy their mainday gave a good average crop, Jowari was a 12 anna crop, pulses

- millet 8 annas, pigeon pea 6 annas, sugar-cane 6 annas, wheat 8 annas, gram 8 annas, cotton 4 annas; the miserable result in the latter case being due to heavy rain after sowing. The Rabi crops were not very much, wheat gave an 8 anna crop, gram 8 annas, cotton 4 annas.

In the Baragad Táluka the area under cotton cultivation has increased from 44,000 to 45,000 acres during the past year.—

In the Sampgaum Táluka the area has increased from 19,000 to 20,000

and though prospects were bad at first the eventual result was a good average crop. Throughout the above 16 annas is taken as an average crop.

Steady efforts have been made to get rid of the prickly pear nuisance; but a separate report is shortly to be forwarded on this subject.

## XVI. Special duties.

The work of preparation of water Registers in the Sampgaum and Murgod Talukas was assigned by Collector's No. 4489 dated 23rd. November 1889

to the District Deputy Collector and Second Assistant Collector.

In Khanapur Taluka there remained at the beginning of the year 45 Patilki and 15 Kulkarniki Registers awaiting completion out of the original numbers 199 and 206 respectively. The actual number of Registers completed during the year was 15 Patilki and 9 Kulkarniki, against a total of 39 last year, there thus remains 30 Patilki and 6 Kulkarniki registers to be completed.

One crop experiment on a

field of grain was conducted by Mr. Hervey at Vadakeri in Parasgad Taluka, but as he has left no notes of his experiment in this office. I am unable to furnish any. informa tion.

I have the honour to be,
Sir,
Your most obedient Servant

J. H. DeBoulay
First Assistant Collector

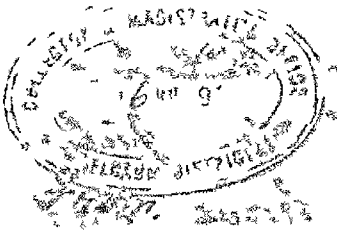
Subject

Administration Report for the year 1899-1900



| Subdivisions | Area in Square miles | Population according to the Census of 1881 |
|---|---|---|
| Belgaum | 660 | 127,853 |
| Gokak | 612½ | 90,029 |

[illegible] Soldiers
[illegible] Service [illegible] the Duty
[illegible] Fever [illegible]
[illegible] Men [illegible]
[illegible] Body [illegible] Detachment [illegible] with
the exception of five [illegible]
[illegible] (from April 3rd
to May 6th) when the
Brigade [illegible] was in
charge of the District
Deputy Collector.

A return of
the officers at which
I have resided during
the year and the
number of days spent
at each is forwarded
herewith (Appendix No. 1).
The tour which is
delineated on the
accompanying maps was
abruptly terminated at
the end of March, when
I was placed in

II. Revenue Jamabandi

3, The Jamabandi settlement was effected during the periods noted below:-

| Talukas. | Commenced | Completed |
|---|---|---|
| Belgaum. | December 2nd 1889 | 21st December 89 |
| Gokak. | 10th January-90 | 30th January 90 |

4, The results of the settlements of the Talukas mentioned in the last paragraph were noted down at the time and are as follows:

Items arising subsequent to the preparation of the village Sharavanda have not been included The list of deceased Khatedars whose names

[illegible] the
Accounts were obtained.
[illegible] time of Jamabandi
[illegible]

## Land Revenue

### Belgaum

| | Remission | | | Alienation | | | Revenue for Collection | | |
|---|---|---|---|---|---|---|---|---|---|
| 1893–94 | 182 | 61 | 3 | 1 | 6245 | 1 | 9 | 16876 | 13 | 8 |
| 1894–95 | 182 | 11 | 10 | 3 | 6231 | 1 | 9 | 16736 | 7 | 5 |
| Increase | | | | | | | | | | |
| Decrease | 49 | 8 | 10 | 1 | 20 | | | 139 | 6 | 3 |

### Gokak.

| | Remission | | | Alienation | | | Revenue for Collection | | |
|---|---|---|---|---|---|---|---|---|---|
| 1893–94 | | | 86 | 6 | | 6906 | 1 | 9 | 14966 | 9 | 6 |
| 1894–95 | | | 86 | | | 6811 | 2 | 7 | 14378 | | 8 |
| Increase | | | | | | | | | 432 | 7 | 2 |
| Decrease | | | | 6 | | 264 | 9 | 2 | | | |

## Local Fund.

### Belgaum

| | Revenue for Collection | | |
|---|---|---|---|
| 1893–94 | 15236 | 9 | 2 |
| 1894–95 | 15264 | 8 | 10 |
| Increase | | | |
| Decrease | 72 | | 4 |

### Gokak.

| | Revenue for Collection | | |
|---|---|---|---|
| 1893–94 | 13206 | 4 | 2 |
| 1894–95 | 13215 | | 9 |

| Decrease | 42 | 11 | 6 |

555

5 A Comparison with the settlement of last year reported in this office No 478 dated 16th July 1889 gives a net increase of Rs. 4249—3—7. in Land Revenue in the Gokak Taluka and decrease of Rs. 1396—13—3 in the Belgaum Taluka.

| Talukas | More | | | Less. | | | Net. Increase | | | Net. Decrease | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Belgaum. | 849 | 12 | 5 | 2246 | 9 | 8 | . | . | . | 1396 | 13 | 3 |
| Gokak. | 4433 | 12 | 2 | 184 | 3 | 7 | 4249 | 3 | 7 | . | . | . |

The Cause of increase and decrease are given in Appendix II.

5. A Comparison with the settlement of last year reported in this office No 478 dated 16th July 1889 gives a net increase of Rs. 4249—3—7. in Land Revenue in the Gokak Taluka and decrease of Rs. 1396—13—3 in the Belgaum Taluka.

| Talukas | More | | | Less. | | | Net. | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Increase | | | Decrease | | |
| Belgaum | 849 | 12 | 5 | 2246 | 9 | 8 | . | . | . | 1396 | 13 | 3 |
| Gokak. | 4433 | 12 | 2 | 184 | 3 | 7 | 4249 | 3 | 7 | . | . | . |

The Cause of increase and decrease are given in Appendix II.

Figures

Jamabandy the financial years 1889-90 to 1892-93 Lohara were advanced to the persons in Baburan Jabeka and Rs. 5645 to 32 persons in the Gokul Jabeka.

2. Interest - The amounts advanced in the Jabeka respectively were 5900 and 3300 giving the total for each Jabeka for the two years together and are Rs. 9200 rupees.

3. The remaining figures the might mean that the demands for each Jabeka were the same, but that the money was paid in the one. Baburan Jabeka

[illegible] demand [illegible]
the advances. The people
not accustomed to
system — 1887 — 1888 —
ing the first year in
which the advances were
made and they have
not as yet appreciated
the advantages to be
obtained from it. The
workers dislike it and
do [illegible] best to prevent
the [illegible] applying.
If [illegible] Freedom never to
lend [illegible] again to those
who take the advances
and as they take care
to explain to the royat
[illegible] Government only
lends the money for
[illegible] certain specified
purposes, the latter years
last, when money is wanted
for marriage & other
expenses, he may readily
find

find that he is not
to borrow at all. He
makes him chary of
adventuring into the pos-
-sible consequences of taking
a Tagai advance, and
he likes frostpones mak-
-ing the improvements
so much called for on
his land, or else borrow
at the old rate from
his usual Sowkar.

The comparatively
large advances made during
the last two years in
this Taluka are I consider
due to the energy of
the Belgaum Mamlatdar,
who has not omitted
difficulties inherent to
in which Tagai advances
have been readily received
by cultivators who
explained to them the
advantages attending
[illegible]

borrowing from Government.

5. During my
discussions with Cultivators I found
that of the various
improvements of the System
of Agriculture I found a man with
one fifth of his holding
uncultivated. His reason
for allowing this to lie
so was that it would
require Rs. 150 to make
it cultivable and he
could not afford to
spend that amount
nor did he wish to
borrow from a Sowkar
as the rate of interest
was prohibitive. He was
able to live on the
produce of his holding
as it was cultivated, and
was the owner of
several bullocks and a
cart

Cart. He had come
across with the village
Surgeon who rode for the
Coach & so he drove
to me directly & I
prescribed what would be
beneficial by an advantage
but he seemed displeased
when I asked him about
it and although I had
the matter well explained
to him he has not
since sent me any expla-
-nation. /
I have in my practice
instances and I dare say
you have also that when the
terrible symptoms of the typhus
and typhoid fever
disappear, & the
Skin becomes
perspirable
people

[illegible] to [illegible] around
it. I refer from seeing
advantages gained by
[illegible] where [illegible]
[illegible] more and more
[illegible] will apply for
[illegible]. That [illegible] are
many cultivators to
whom such a loan
would be of the
greatest benefit I am
convinced from the enquiries
I myself made for the
next year or two how-
ever the actual amount
required, will be almost
limited to the case of
such cultivators as come
under the notice of the
Mamlatdars or Assistant
Collector, the persons who
will be benefited by
our advance, and who
under this advice make
an application for

2. Of the Field [illegible]
[illegible] [illegible] [illegible]
[illegible] [illegible] [illegible]
[illegible] [illegible]

[illegible] [illegible] [illegible] to
the [illegible] of applications
by the conditions
which have not been
complied. Some of the
Municipalities have not
yet been able to make the
returns as quickly as
could be wished and
generally it has not
always been possible,
even when the enquiry
has been completed,
and the loan recommend-
ed, to get an allot-
ment granted from
which the money could
be advanced. The year
the first in which
money has been placed
at my disposal to
borrow for financial
purposes. Last year
my first allotment was
obtained in December

In 1888 the first allot-
-ment was obtained in
October.

13 This delay in
obtaining an allotment
and the uncertainty as to
its amount led to the
Mandatdars postponing the
enquiries into petitioners
until the allotment had
first been made. The
consequence was that
petitions accumulated and
applicants had to wait
two, three, and even four
years, before getting the
advance. The practice was
stopped last year and
petitions since received
have been disposed of
as above.

The effect of the
above rule with the mass
of petitions already
pending at the end of

22 of the last three years the numbers are as follows

June 1888 — 264
" " 1889 — 32
June 1890 — 24

§ 14. The difficulty however in obtaining advances within a reasonable time has deterred people from making applications and now when I visit a village in the Taluka and ask whether Tagai is wanted, the first question I am asked is whether there is any certainty of money being forthcoming within a reasonable time. During January and February I was able to assure the people that this was the case and before the middle of

of March I received a
letter from Chas. Ley, Esq. Town
15, The total number
during the year was
83, of which 18 were
remaining from the previous
year. Of these 38 were
granted before April 1st
45 were rejected, which
left 2 still remaining
enquiry.
I carefully
examined the cottages, the
work done since the previous
and I found that the
improvements effected were
considerable. The chief
objects to which attention
had been directed were
the construction of proper
dwelling and
ground for cultivation
and
strictly

Kinds to prevent
damage by rain or
flood. I have also some petitions
and complaints from
people who had been
refused Sagai. At Radhatti
one bota by name
if he had applied
for Rs. 200 to build
bund at the bottom
his field. The
field bordered on a
large nullah which each
year flooded the lower
portion of the field
and washed soil away.
The bund was to
prevent this happening.
He applied for Sagai
but as the Mandalde
insisted on his giving
a written undertaking
he could not
accept the agreement
Therefore

Therefore borrowed Rs 200 from his Sarkar giving a bond for Rs 400 repayable at the end of 2 years. This man had no other debt and the value of his land was about Rs 800. Ex. The Manbhadar was much wrong in requiring another person as security; but here we have a man free from debt and with land worth Rs 500 obliged to borrow from a Sarkar at a usurious rate of interest simply to make a necessary improvement to his land. If he had borrowed Rs 200 from Government he would have been allowed a year to the end of the week

per year which is
called the advance and
the total cost to them
would have been Rs 246
spread over six years
from the date of the
advance instead of Rs.
300 to be paid in a
lump at the end of
2 years.

If the advantage
seems to all borrowers
are as great as this
it is easy to understand
the genuine popularity
of the System.

It is
thoroughly popular in
the Gotan Taluka
there is not the slightest
doubt, and when enquiries
are made to be made
there quietly and friends
the amount at the
year round, to large

increase in the amount advanced may be fixed by anticipation.

2d, That these advances do a great deal of good & also certain for which they enable cultivators to make permanent and profitable improvements on their holdings, they at the same time keep them more and more free from the clutches of the money lender. By spreading the repayment of the advances over a number of years the debt is but lightly felt. And I have never yet met a man who was unable to repay his advance out of the increased return from his land

The progress of realization under the Land Revenue Act not including Revenue assigned to Local funds or credited to the P. W. Department is shown in the following Table.

| Talukas. | Demand. | | | Collections upto 31st March 1890. | | | Balance on 1st April. | | | Collections from 1st April to 30th June. | | | Balance. | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Belgaum | 168842 | 11 | 6 | 164429 | 12 | 4 | 4417 | 15 | 2 | 4409 | 2 | . | . | . | . |
| Gokak | 157825 | 5 | 6 | 136421 | 5 | 1 | 21407 | . | 5 | 21 | 3 | . | . | . | . |
| Total | 326671 | 1 | . | 300850 | 1 | 5 | 25824 | 15 | 7 | 4430 | 15 | . | . | . | . |

The results are very satisfactory. The Collections of Land Revenue were made without any difficulty or pressure.

8

The general condition and prospects of my Charge are on the whole favourable. In Belgaum and Chandgad the Rabi Crop is nil. The rainfall in Chandgad was as usual a heavy one and as there was no cloudy weather in September and October, except when rain actually fell, the rice crop was an excellent one all over the Taluka and varied from 12 to 16 annas. In the Saluka proper the rice crop suffered from deficiency of rain in August and the outturn was not above 12 annas.

Other Crops did well, Sugar Cane being the best with an average

[illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible]

in the extreme East
the Central Province
and the Coast Districts
Indian corn
the staple
was destroyed in many
and the crops
generally
averaged about half
to the other two
wheat was
last year, cotton
also better and the
crop was a very
one.

In the Mwanza
villages good early crops
were grown by the help
of the water from the
Canal, but the outside
sowed in February
some crops
still growing there
in consequence.

Neither of the
Islands has been yet

free from disease Cholera
visited Gokak during the hot weather of 1889 and continued about part of the monsoon. After the end of June there were 207 cases and 121 deaths in Gokak and 103 cases and 53 deaths in Belgaum.

In Belgaum there was an out-break of small-pox at Sadli which resulted in 38 deaths out of 283 cases. During the hot-weather both Talukas were visited by the influenza and there was at one time a very large increase in cases of fever and Catarrh.

The Compilation of the Taluka Talabands of the past year with the daily sheets and other papers are duly completed on the dates given below and in the manner prescribed at page 258 of the manual of Revenue Accounts. No errors of importance were discovered.

| Talukas. | Dates. |
|---|---|
| Belgaum. | 1st September 18[illegible] |
| Gokak. | Do |

10, The Examination of the Taluka accounts were effected in general accordance with the directions at page 119 and 120 of the manual at the periods stated below.

| | | |
|---|---|---|
| Talukas. | First examination | Second examination |
| Belgaum. | 26th Dec. '89 to 7th January 1890. | |
| Gokak. | 18th January 1890 to 23rd January 1890. | March 16th to 22nd |

No second examination was made of the Belgaum Taluka accounts. The accounts and records were in good order and no errors of importance were discovered. The destruction of useless records in the two Talukas has been completed up to

/11. Village inspected

The amount of village Inspection work has performed by the below:

| Talukas | Villages | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | Total | Visited | | | | | | | | |
| Belgaum | 342 | 64 | 41 | 30 | 2x | 329 | 18 | 202 | 16 | |
| Gokak | 120 | 63 | 38 | 48 | 53 | 470 | 40 | 616 | 24 | 5 |
| Total | 322 | 97 | 79 | 78 | 75 | 799 | 58 | 718 | 40 | 74 |

2 Gf Ge Ink village visited by me in the Belgaum Taluka 24 were not visited by me last January. Out of 63 visited Gokak Taluka 24 were visited by me last January. Out of

The village
officers work has on
the whole been well
done. In the Belgaum
taluka 13 and in the
Gokak Taluka 19 village
officers were fined for
various irregularities. The
gist of complaint to be
made against the village
officers is that they
do not always reside
in their villages. There
were some complaints
also in regard to account from
the Irrigation Authorities
at Gokak but in these
instances the occasional
absence from the irrigated
villages appeared due
either to the Kulkarnis
having more than one
village to look after
either to any official
visitation to their duties

In.

4 In Belgaum Taluka and particularly in the Chandgad Mahal the Kulkarnis in many instances admittedly do not live on their villages. As these villages are mostly very small and the rainfall is very heavy the Kulkarnis refuse to live in them; it is impossible to get any outsider to take the place as the smallness of the stipend does not compensate for the unhealthiness and loneliness of the villages: to all that can be done to satisfy entirely that they visit their villages sufficiently to do their work properly.

5 The following statement shows the number

Police Patrol invented
with Signal towers
and the work done
by them. The Chief Magistrate
in his report has that their
work has been well
done.

| | No. of Trials involved with powers. | Cases decided |
|---|---|---|
| Belgaum | 4 | 47 |
| Hubli | 2 | 4 |

62 The number of cases decided by Mamlatdars Courts, Act II of 1906 and the results of the supervision exercised in the office are shown as below

| Talukas. | No of cases decided | No. of cases examined | No of cases referred to the Collector. |
|---|---|---|---|
| Belgaum | 103 | 32 | |
| Khanapur | 26 | 7 | |
| Nerekar | | | |
| Jamboti | | | |
| Gokak | 33 | 23 | |
| | 162 | 62 | |

The work has been on the whole well done by the officers concerned though I found signs of carelessness in minor details in the work of the Gokak Mamlatdar. No instances of corruption were brought

13 — Local Funds —

The number of Local Board meetings and the number of them attended by the Assistant Collector is shown below:—

| Taluka | No. of meetings | Assistant collector present. |
|---|---|---|
| Belgaum | 2 | 2 |
| Gokak | 10 | 1 |
| | | |

In Belgaum about Rs. 1500 were spent on repairing roads. The work was fairly distributed over the whole Taluka and was well done. In Gokak about Rs. 250 was spent in repairing two roads in the Taluka and both of them were satisfactorily. In Belgaum further

[illegible] to consider the
[illegible] to be made - and
[illegible] Belgaum Chief but
these improvements it has
[illegible] been found
[illegible] to undertake. In
Gokak it will be necessary
before long to improve
the road leading from
Kolur to Ankalgi. Both
the Taluka Boards are
aware of this and
appreciate the importance
of the works and only
want of funds at
present [illegible] their being
taken in hand.
In Belgaum one
well has been constructed
but in Gokak nothing
has been done to
improve the water supply.
The villagers persist in
refusing to [illegible] any
[illegible] water [illegible] their
village

villages work as their dislike to the kind of well prevents them distributing towards the expenses of building them, it is possible that no wells will be made for some time.

3. The members of both boards take an intelligent interest in the work done.

4. The villagers of particular villages have complained to me when on tour that they have received no return for the villages for the cess they have paid for several years. They suggest that each village should be given a chance and I think they consider that they have a right to meet for something being done for

Rev. [illegible] village. Jno
Lodge [illegible] been told
by [illegible] that they are
[illegible] to draw it
attention of the board
to [illegible] particular wants
and that any reasonable
request will be complied
with as soon as funds
are available, and when
other more important
matters have been provided
for. [illegible]
[illegible] I find that the
members of the Board
look at the Labor
requirements from a liberal
point of view and do
not [illegible] to treat any
unreasonable wants from
[illegible] own localities
[illegible] immediately complied

## Education

The number of schools in each Taluk and the number & kinds of each are shewn in the following statement below.

| Taluks | No of schools in each Taluk | No of Schools managed by the Municipal Council | No of Schools under Inspection - Lower & Higher Standards |
|---|---|---|---|
| Belgaum | 24 | 6 | 24 |
| Chandgad | 7 | 2 | 7 |
| Gokak | 24 | 16 | 24 |
| Total | 55 | 24 | 55 |

The total daily attendance in the Taluk Schools is shewn in statement and details in file of a a a a a on the fees charged. The Schools in Gokak are not in Municipal limits, and non-municipal

real [illegible] of the fear has taken away their excuse for not sending their children to school, the people openly state that they do not see any advantage in sending them, and that they require their services for tending cattle and other useful purposes. In each village the Brahman children with the sons of the goldsmith, carpenter, blacksmith and banias, constitute the only regular pupils. From time to time a few rajputs children also come but only attend irregularly and do not do that long.

Of the schools I visited the only one that appeared to be in a

a satisfactory visit. The
one at Gadag
where there is a large
attendance and an efficient
staff. At Belgeri the
school was distinctly a
bad one and the
people did not hesitate
to say that they would
be glad to get rid
of it. At Mudalgi
a quarrel between the
Kulkarni and the Head
had had a prejudicial
effect on the attendance.
In the South-west of
the Jaluka the schools
are more popular and
better attended, but on
the whole it must be
admitted that the cause
of education does not
progress in Gokak.

In the Belgaum
Jaluka as far as I

can judge their appreciation of education. The school is better attended and in several villages the people asked that schools might be established.

The last year has been an unusually one in the history of Belgaum and gotten Salutes.

2 In Belgaum the rayats have already become accustomed to the revised assessment rates introduced in May 1888 and complants have been heard from them. While making experiments at Chandgad I found that the Assessment formed only one third of the rent paid for land cultivated by tenants - many of whom, pretending that the rent they pay is their assessment, ask for remission of their rates, it is clear that the Government is by no means entitled to.

In Chandgad

however the condition of the cultivators is not good. Many percent of them are in debt for sums varying from 40 to 100 rupees. They are unable to free themselves from the money lender and while for a debt of 40 rupees they often pay Rs 10 a year if the outturn of their land is good, it is all credited as interest by the money lender and the capital remains only to mount up if the cultivator has land until it suits the creditor to take this land, or in any case to continue an overwhelming burden. In this part of the Satara the Brahmins are in debt chiefly

in consequence of the causes
incurred ever on family disputes
and the marriage of
Children.

There are extremely
few independent persons in
the whole Mahal and
only three or four who
can be called rich
Further east from
condition of the people is
better. Near Bageurde I
made careful enquiries
in six villages as to
the state of indebtedness
of the cultivators But
of 65 Khatedars I found
only ten in debt
less than 10 per cent
and with one exception
none of these
owed more than they
could discharge in a short time
they nearly all were
able to live on their

[illegible] who
[illegible] do so entirely
[illegible] had no
difficulty in supplementing
the produce of their
fields by daily work
for others.

In Gokak I
do not find that
[illegible] much debt and
most of the cultivators
are moderately well off.
Where the land is
unproductive and the
rainfall precarious, there
is a tendency to
migrate to more fertile
places, and I think it
will be found at the
coming Census that
the population of the villages
in the east centre of
Gokak and of the
few villages immediately South of Gokak
town

town [illegible] not [illegible]
encouraged [illegible]
[illegible] by the [illegible]
fond of litigation [illegible]
-cially on the Criminal
Courts and many charges
are falsely brought to
satisfy if possible some
long standing [illegible]
This propensity is unfor
-tunately encouraged by
the [illegible] in the
Taluka who are consulted
as a rule before any
charge is brought [illegible]
do not think that
these false charges can
result in a conviction
but they are the cause
of much annoyance to
the persons against
the [illegible]
I [illegible]
route [illegible]
be [illegible]
the address of the

Hubli. The Yakat in which was formerly a large distributing centre trade is comparatively stagnant. Grain is no longer brought here from the northern talukas of the District and only Cattle are brought through the town from the market at Ranebennur at Gadag. The petty traders complain that their business is going from them and this too I think is due to the export trade developed by the railway. Along the Belgaum Dharwar road the traffic is much reduced and the Carts have for the most journey has now fallen from 6 or 7 rupees

Between the [illegible] and the [illegible]
amount of cotton [illegible]
dust along this route
is only about half of
what used to come
when all the Khmer
and Loatian cotton was
sent to Kipanie, [illegible]
thence to Belgaum, and
from Belgaum to
Vingorla.

11 The demand for
labour has been normal
throughout the year,
except at the Dhupdal
Storage works where a
large number of labourers
were [illegible] work.

12 The Girls' School
continues to give satisfac-
tion. [illegible] are
hands of whom about
150 are young children.
The Mill has been [illegible]
throughout the year. Work
there is very regular

[illegible] the [illegible]
high [illegible]
[illegible] 53. The destruction
of [illegible] weekly [illegible] continued
in the Gokak Taluka
and in eight more
villages of the [illegible]
eradicated. Out of the
120 villages in the
Taluka 60 are now
free from the pest.
A great deal still
remained to be destroyed
and it will be
several years yet before
the Taluka is entirely
cleared. [illegible]
[illegible] In a Belgaum
Taluka there is no
weekly - pear.

[illegible] Duties [illegible]
[illegible] Surveys [illegible] expenses
[illegible] surveys made by
me on the year, and
on which the reports
and plans thereon have been
duly forwarded to the
Director of Land Records
and Agriculture.

2. The [illegible] of
the Vatan Registers of
the Paraganas Saluka
[illegible] has been proceeded
with and 47 registers
[illegible] during the
year under report. This
work was [illegible] over
by the Assistant
Collector in November 1884.

3. In February of
was ordered to go to
the Belgaum - Sawantvadi
border to erect boundary
marks on a rectified
boundary between the

Villages of Kandahar
Dilaram and Girishk. His
work was carried to completion
on February 13th
from April 27th
to May 25th I held
charge of the Hunza
Nagar Political Officers
and Assistant Hunza Interpreter
in addition to my
own duties.

I have the honor to be
Sir
Your most obedt Servant
H. Shepherd
Second Assistant Officer
Belgaum

No 475 Belgaum

Dated 5th July 1890

From

The District Deputy Collector and

Magistrate First Class

Belgaum

To,

J Fawlie Mynn Esquire.

Collector and District Magistrate

Belgaum

Sir,

I have the honor to

submit the annual Report on

the administration of my charge

which is composed of the

| Talukas | Area in square miles | Population |
|---|---|---|
| Chiranda | 842 1/2 | 247,244 |
| Adami | 786 4/5 | 105,961 |
| Total | 1629 3/10 | 353,205 |

During the year under report the charge has been entirely with me. I was also in charge of Porbar Taluka from 3rd April to 8th May and of the Barda, Jamjodpur and Khambalia Talukas from 7th to 18th May and from that date up to now I have been in magisterial charge of these five Talukas.

A return of places at which I have resided during the year and the number of days spent at each is inclosed (Appendix VI) The mean

the year excluding four

visited in the preceding year have been marked with an asterisk. This return will show that your instructions regarding the percentage of villages to be visited in a year have been carried out

II Revenue (a) Jamabandi.

1 The jamabandi settlement of the Chikmagalur Taluka was made by me and that of the Kadur Taluka by the Collector.

| Talukas | Commenced | Completed |
|---|---|---|
| Chikmagalur | 5th February 1890 | 24th February 1890 |
| Kadur | 8th January 1890 | 23rd January 1890 |

The residents of the settle-

ments of the Pahuras mentioned

in the last paragraph were noted

down in my notes at the time

and are as below. Items arising

subsequent to the preparation of

the village — Pharaonamals have

not been included. Lists of

released Khatedars whose names

were retained in the accounts

were prepared at the former

inundation settlement.

Land Revenue

Quartermaster Viraboma

Asst to Collector -

5 A comparison with the "Settlement" of last year shows that the [illegible] including forest land is Rupees 4616-4-4 in the Chikkanadu Talukas and Rs 155-3-4 in that of Attur, as will be seen from the subjoined table.

| Talukas | more | | less | | | Increase | | | Decrease | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| Chikkanadu | 3194 | 14.2 | 7811 | - | 2 6 | - | - | - | 4616 | 4 | 4 |
| Attur | 1118 | 5 8, | 1273 | - | 9 - | - | - | - | 155 | 3 | 4 |
| Total | 4313 | 3 10 | 9084 | 11 | 6 | - | - | - | 4771 | 7 | 8 |

The causes of Increase and Decrease are given in appendix no II. The decrease in Land Revenue in the Chikkanadu Talukas is mainly due to smaller number of unoccupied [illegible] cultivable waste. The decrease under Alienation is due to enhancement of quit and the decrease under Forest Lands

The decrease assigned for the decrease under Land Revenue

The decrease under Land Revenue in the Akola District is attributable to smaller number of unoccupied waste lands and of village-sites for building purposes having been sold in the year under report, the decrease under Remissions is due to no remissions having been granted this year, and that under alienation is due to enhancement or grant. The increase under Local Funds is however due to no remissions having been granted this year on account of enhanced assessed rates.

Forests

Appendix no III will show the amount advanced to cultivators in the Khichpuri and Akola Talukas and the purpose for they were advanced. Repayments - no doubt - to have been made from time to time

In the Chittagong Division 94 applications were received by the end of June 1890 of which 34 were granted, 13 rejected on the ground that the applicants were unable to give adequate security and 47 are under inquiry. Those that are under inquiry were lately received. In the Orissa Division 48 applications were received, of which 18 were granted 27 rejected for the reason above given and 3 are under inquiry. These advances would be more popular in the District and Revenue Officers ought to explain the object of Government in making these advances and the advantages to be derived therefrom to the ryots when examining their Receipt-Books.

7 The progress of the realizations up to 30 June of the Land Revenue now including revenue assigned to Local Funds or credited to the Public Works Department, is shown in the following table

| Talukas | Demand | Collection up to 31 Dec Current | Balance due on 1st April | Collected up to 30 Dec Current | Balance |
|---|---|---|---|---|---|
| Chikkodi | 307744 6 10 | 306159 12 6 | 1781 10 1 | 781 10 4 | - - - |
| Athani | 199910 14 4 | 139457 8 10 | 60453 5 6 | 60453 5 6 | - - - |
| Total | 507852 5 2 | 445617 5 4 | 62234 15 10 | 62234 15 10 | - - - |

The above shows that all the dues have been collected in time - not a single notice was issued nor any compulsory measures were adopted in the collection of the revenue - Your orders with regard to prompt collection were published in all the villages in my charge and they had some effect in the collection of the whole amount in due time. The Mamlatdar, the Mahalkari their establishment and the village officers have exerted themselves much in this matter

The general condition and prospects of my charge are good on the whole

In both Talukas early and late crops appeared at first in consequence of rain coming in time for a considerable time but subsequent showers

helped to revive the drooping crops and the result was a fair one on the whole. The yield of the principal crops would be from 12 to 14 annas in the Rupee.

Your orders regarding the estimate of crops have been fully explained to the village officers but these estimates, as reported in my letter no 39 dated 3rd April last are framed by guess and would continue to be such until cultivators keep accounts of the seeds sown and the produce raised or in other words, keep regular farm-accounts

The public health was, on whole good, though cholera at present prevails in the Chikodi Taluka and it prevailed in that of Athani and though influenza did some harm - Precautionary measures to suppress cholera prevailing slightly in the Chikodi Taluka have already been taken.

With rare exceptions the people in my charge are not of an unfriendly disposition.

the exorbitant prices of most of the articles of food and clothing. The wealthy do persons, who were formerly keeping out their capitals in trade, have now been investing it in lands and in consequence the value of land has risen very considerably so much so that the price paid for it is 50 or 100 times the assessment on it, or not more.

The comparison of the Talukas Salesmans of last year with daily sheets and other papers was duly completed on the dates given below and in the manner prescribed at page 288 of the Manual of Revenue accounts. No errors or any consequences were discovered.

| Talukas | Dates |
|---|---|
| Chickodi | 4th September 1889 |
| Athni | 4th September 1889 |

" The examinations of the Talukas accounts were opened in general accordance with the directions at pages 119 & 120 of the manual, at the periods stated. The accounts and records are in good order and no errors or irregularities

record has been carefully attended to. 531 Defaulters of the Chikkodi Taluka and 157 of that of Athni were destroyed.

The dates on which the Talukas in my charge were examined are shown in the subjoined table.

| Talukas | Dates | |
|---|---|---|
| | First examination | Second examination |
| Chikkodi | 24th March 1890 | 31st May 1890 |
| Hukeri Mahal | 14th December 1889 | |
| Athni | 8th April 1890 | 16th May 1890 |

The Revenue work of the Chikkodi Taluka is very heavy and in consequence the Mamlatdar is unable to reply promptly to my references, in spite of the Mamlatdar the Mahalkary and their establishment working from early morning to late hours at night to cope with the heavy work imposed on them. In proof of this assertion I beg a reference to your numerous reminders issued during this year.

The amount of village inspection prepared by me is shown in the accompanying table

| Taluka | Villages | | | | Village Accountants | | Revenue Inspectors | |
|---|---|---|---|---|---|---|---|---|
| | Total number | No. visited | No. in which accounts were examined | No. in which records were examined | No. of villages | No. of Accts. | No. of villages | No. of Accts. |
| Chikodi | 216 | 70 | 61 | 63 | 61 | 920 | 58 | 538 |
| Athni | 82 | 32 | 30 | 30 | 25 | 718 | 22 | 369 |
| Total | 298 | 102 | 91 | 93 | 86 | 1638 | 80 | 907 |

The above table will show that your instructions regarding the amount of village-inspection and so forth to be performed by an Assistant have been duly carried out.

The work done by the village Accountants was good on the whole.

16 village-officers in the Chikodi Taluka and 16 in that of Athni were however fined and 4 village-officers in each Taluka were reprimanded. One Kulkarni in the Athni Taluka was dismissed for attempting to defraud Government of a pretty large sum of money in the [redacted] of Government waste [illegible].

The procedure given at page 84 of Hopes Manual was followed in examining Rent Receipt Books.

The state of the Boundary-marks was, on the whole, good and your orders regarding the prevention of holes being made near them have been attended to.

The door to door inspection to find out that Census Returns are kept correct was made with the result that no mistakes of importance were found. But whenever the line-slip is found to be more or less the village officers explain the increase or decrease by stating that more were born or bought or died or sold after the returns had been prepared. There is however no record except his bare statement, to prove his assertion. So see that the vital statistics are nearly correct I should add columns to the Returns for births and purchases and deaths and sales.

Your orders regarding destruction of prickly pear are carried out as per as possible.

In one Chickwadi Talukha were 5 Patils non

Police act no 8 of 1867 but 3 of them were deprived of their powers because they did not exercise those powers for two years past - They decided 5 cases and their decisions were on the whole just. In the Athni Taluka 10 Patils were invested with similar powers of whom 8 Patils ceased to exercise the powers for the reason given above - They decided 4 cases and their decisions were just.

12 The number of cases decided by the mamlatdars of Chickodi and Athni and by the Mahalkari of Hukeri under Bombay Act 3 of 1876 and the results of my supervision are given in the margin The decisions passed by the mamlatdars and the mahalkari appeared to be just - minor defects in their decisions were however pointed to them to be avoided in future

| Taluka | no of cases decided | no examined | no reported to the Collector |
|---|---|---|---|
| Chickodi | 96 | 88 | " |
| Hukeri Mahal | 43 | 31 | " |
| Athni | 77 | 72 | " |
| Total | 216 | 191 | " |

Local and

meetings were held in the Chickodi

Talukas and four in that of Athni were held and each attended as under by non-officials:-

Chickodi

| | non-officials |
|---|---|
| 1st | 6 |
| 2nd | 5 |

A sum of Rs 11413 in the Chickodi Taluka and Rupees 4548 in that of Athni were allotted for the repairs of roads, schools Dharamshalas, Chowris. The non-official members supervised some of the repairs done - They evinced an interest in local matters. I attended one meeting in Chickodi and two in Athni.

There are 54 schools in the Chickodi Talukas and 34 in that of Athni. I visited 29 schools in the Chickodi Taluka and 24 in that of Athni. The Mamlatdars and Mahalkari have visited the schools in their charge.

It appears to me that [illegible] education

encouragement and the encouragement to be attractive should take the form of industrial and agricultural schools to learn practically how tools are made and how land made fruitful.

15th General Remarks — I have decided all the Watan cases of my charge and in addition decided 41 cases of the Gangapur Talukas in charge of the 1st assistant Collector. By your letter no 4834 dated 30th October last I was told that there were only 21 cases to be decided but I now found that the total number was 78 and not 21 — I have already issued notices for collection of evidence in 9 cases and in 3 cases I have not yet received "Yalvar Patrakas" from the Mamlatdars.

The accounts of the three Municipalities in my charge were examined. The offices of the Chief Constable and Sub Registrar were examined. The Chandabai Dispensary was visited. The accounts of 31 Kamgar endows Census Returns of 56 Birth and Death registers of 67 wards

and Vaccination Returns of 47 villages were examined. The accounts of all the shops in my charge where arms and ammunition are sold were examined. The accounts of 18 liquor shops, 8 Toddy shops, 7 Ganja bhang shops 6 Opium shops and 10 shops where poisonous substances are sold, were also examined a good deal of my time was taken up in the issue of final orders on Police reports sent under section 173 of the Code of Criminal Procedure in accordance with Government Resolution Judicial Department No 6272 dated 19th November 18xx. As usual I had to audit the returns of the Taluk Authorities and to make a detailed examination of a Taluka. I had also to make a special Crop Experiment during the year under report

I have the honor to be

Sir,

Your most obedient servant

Gurubasa Karabasa

Belgaum
1st August 1890

Superintending Engineer
D. D. Collector

No. 4079 Belgaum

Dated 5th August 1890.

From Forwarding Memo; recorded by Mr J. Forlis Muir, Collector and District Magistrate Belgaum, on the Administration reports for the year (89/90) of

— Mr. Dr. Boulay, in charge of the First Assistant Collector's office;

— Mr Sheppard, officiating 2nd Assistant Collector and

— R B. Gurshidapa, District Deputy Collector.

(Sr of these reports The charge of the First Assistant Collector changed hands, repeatedly, during

See ¶ 3 of Belgaum Collector's Administration Report, No. 4078

the year. The work — more especially the inspection-work; that to be done properly, requires to be done systematically — suffered in consequence. The main causes for these changes were Mr. Gamp's appointment as Forest Settlement Officer and Mr. Hervey's transfer from the District. Mr. Du Boulay, a junior officer of little or no experience, was holding temporary charge of this office at the end of the year. His report, under the circumstances, is creditable to him; he has, too — with reference to the work, generally,

office — addressed himself, to good purpose, to the disposal of the arrears, left by Mr. Mervey.

13 (§6) I have but little to add to the remarks, that I made last year about the grant of takavi advances. I have, too, noticed the matter in my own report of this year. I may here note, however, that the District and taluka officers continued, during the year, to do their best to popularise the system.

The preliminary measures required to

done, have been carefully and systematically taken. In the first place, the land-holder or the cultivator must, of course, know generally what the system is, - and realise to some extent the value of the benefits, offered him by Govt, - before he can be expected to negotiate an advance. The reports of my Assistants tell of "the numberless "applications", that now pour in. These are evidence in themselves, that the requisite knowledge is fast spreading; but they, also, show that much

5. To Rao Bahadur Gurshidapa belongs the chief credit (as I have before reported) for what has been achieved in this District during the last six years. He it was, who first took the trouble, properly, to explain to the cultivating public the aims and objects of the system. The notification — a simple explanatory one — that now hangs in every chavdi and school throughout the District, is carrying on the work, so happily started by him

application" tell that the matter is now to some extent attracting the attention, that it deserves; but they, also, show that the public is, to a great extent, still under a mis-apprehension. Many a man has during the year applied for money to be expended on objects other than those in question — e.g. on the payment of ruinous ancestral debts or the defrayal of heavy marriage-expenses, shortly to be incurred.

It is satisfactory to note that now, — not only in the Rao Bahadur's charge, but — also

the talukas under the 1st Assistant Collector and 2nd Assistant Collector, a satisfactory start has been made in the matter of the introduction of the system. Govt: will, I am sure, notice with approval the energetic and judicious steps, taken by Mr. Sheppard. His present report is evidence, enough, of the intelligent interest, taken by him in a matter, that in my opinion comes second in importance to none of the various matters, that engage the District Officer attention

account of the impoverished condition of the inhabitants of the Ghat villages is correct. They are hopelessly in debt; are for the most part insufficiently clad and fed; and do not own the land, that they cultivate. The non-resident Saukar is all-powerful in these parts. Another objection to the wasteful system of Kumri-cultivation is that — besides tending to demoralise the hillman and being quite certain, eventually, to extirpate the forest — it brings no real profit to the culti-
vator; the [illegible]

who appropriates the net earnings, such as they are.

8. (§10) The District Deputy Collector draws attention to a matter of urgency. He tells of the excessive work of the Chikodi taluka. I have explained this matter, at some length, in my own report of this and former years. The present Mamlatdar, good officer though he is, fails — as his predecessors failed — to keep the work properly in hand.

(§11) Mr. Sheppard states correctly the difficulties experienced in the matter of [illegible]

Kulkarnis. The matter is of importance, seeing that it affects the convenience of the villagers and the proper disposal of the Govt work. I have during the year pressed it on the attention of my Assistants and Mamlatdars.

10. I give, below, a table, showing the village-inspection work, done in each taluka. In my opinion the minimum number of villages, of which the Assistant Collector yearly examines the accounts and records, should (per taluka) be 20 per cent of the total

villages. Of ~~receipt-books~~ the number may well be put down at 350 per taluka; and of fields (boundary-mark inspection) at 150 per taluka.*

* in some 10 to 15 percent of the villages in the taluka

Care would, of course, be taken that villages, examined of late years, are not again selected for examination; — and so, practically in five years time, the accounts and records of all villages in the taluka would be examined personally by the Assistant.

Granted that the above is a fair estimate of it

inspection to be performed, it appears from the table given below, that both Mr. Sheppard and R. B. Gurshiddapa performed a creditable amount of work. Mr. Hervey, too, did a fair amount. I had early in the season, told these gentlemen of the amount of work; that, as stated in the above paragraph, I expected them to perform. This amount Mr. Hervey would, no doubt, have disposed of during the season; had he not been transferred † on 5th May from the District. He intended

* to whom I have credited (in the table below) Mr. Du Boulay's work

† [illegible]

460

12. Again, Messrs. Sheppard and Gurakidapa did, for the most part, the inspection-work of villages, not previously examined of late years. Mr. Du Boulay does not say whether Mr. Hervey did so. In my opinion it is of great importance that this point should not be overlooked. If it is, villages, situated at a distance from the usual camps, run great risk of being, for years together, altogether overlooked by the Assistant.

Statistical registers have, of late years, undoubtedly been better kept

han was the case formerly. Still, as the Deputy Sanitary Comr. has pointed out from time to time during the year, there is yet much room for improvement. Rao Bahadur Gurshidapa visited certain registers by house to house inspection; — as directed by standing orders. But he does not state in how many villages he did so. Messrs Sheppard and Kerwey, however, did not, apparently, carry out the Govt orders on the subject.

11. (13) These reports show that the Taluka Local Board

the District take a creditable interest in their work.

15. (§14) Schools received a considerable amount of attention. I am strongly of opinion that the Assistant, when visiting a village, should invariably look in at the school and see how it prospers. I have remarked in former reports that this had not been done. I informed my Assistants of my opinion. This year it is different; the Assistant has made a point, so far as I can learn, of

the school; — on his visiting a village.

16. Unless education is to be made compulsory, one great object of Govt officers must be to get the public to interest themselves in the matter. Otherwise, education will never make proper progress. Now, the first step to be taken, in view to induce the public to interest themselves as above, is, I think, to show them that Govt (i.e. its officers acts up to its profession; and takes a practical, as well as theoretical, interest in the school

of education.— This can best be demonstrated by Govt. officers frequently visiting the schools;— in view to enquire into their condition and introduce any reforms, called for.

11. The officers in charge of talukas appear to have done their duty in the matter. Also the Mamlatdars and Mahalkaris have, again this year, visited all the schools in their charges.

* G.R (Ed) No 1228 dated 22nd September 1880— §7

And so, too, with the village-officers. These are required by me to visit their schools once

When I came to the District — a little more than five years ago — I found that, with rare exceptions, neither did they, — nor did the remainder of the school panch — ever go near the school; and that this neglect had injured the school in many ways. I had no ~~power~~ power, over the rest of the school-panch; but, with the village-officers, it was otherwise. So I insisted on each Patel and Kulkarni visiting his village school once, at least every month. Such had

† vernacular Circular No 12 dated 2nd September 1885

to ensure that these orders did not become a dead letter. They are now everywhere carried out. Thus, village-officers are now obliged to interest themselves, — or, at least, make a show of interesting themselves, — in educational matters. This has, in a number of cases, that have come to my notice, led other members of the panch to follow their example.

4. Frequent visits, paid by Govt officers to the schools, cannot, I think, but greatly forward the cause of

token of the interest, taken by Govt: in the matter; and serve as a valuable check on the conduct and work of the school-Masters.

20. (§ 15.) Mr. Sheppard's remarks on the indebtedness of the peasant and the course of trade will be read with interest. A careful observer; he has, I consider, stated the facts correctly.

I have told of the crop-experiments in my own report. I may note here, that Rao Bahadur Gurshidapa per-
formed

of general inspection-work.

22. At the commencement of the year, it was only in the three talukas under the First Assistant Collector, that Vatan registers remained to be completed. To dispose of the work, as quickly as possible, I allotted one of these talukas to each of my Assistants. I state below how the work has progressed.

| Charge | The taluka allotted to him | Number of registers | | |
|---|---|---|---|---|
| | | Not completed on 1st August 1889 | completed during the year | Remaining on 1st August 1890 |
| Assistant Collector | Khanapur | 60 | 24 | 36 |
| Assistant Collector | Parasgad | 63 | 47 | 16 |
| Acting Deputy Collector | Sampgaon | 52 | ... | 11 |
| | Chikodi | 3 | | |

Mr. Sheppard disposed of 45 registers

R. B. Gurshidapa — 41 registers

Mr. Hervey (7½ months) — 21 —

Mr. Gray (4 months) — 6 —

Mr. Da Bonlay — 2 —

J. Davidson Muis

Collector

District Magistrate

Belgaum District

No. 3096 of 1890.

REVENUE DEPARTMENT.

*Camp Poona, 16th August 1890.*

The undersigned has the honor to forward the administration reports of the Collector of Belgaum and of his Assistants, and District Deputy Collector.

*Mr. Muir opens his report by a discursive reference to the increase of work* in the subordinate offices and especially in the Chikodi Táluka. The obvious way of relieving the Mámlatdár would be for the District Deputy Collector, who has only two tálukas under him, to take a more direct share in the administration. Admitting much that Mr. Muir says as to the expediency of dividing the táluka into two, this is hardly the place to discuss it.

Collector's para. 2.

2. The crops, although they suffered in places from untimely rain, appear to have been little under the average, the spring harvest in many parts of the district being unusually good.

Collector's para. 4.

3. Cholera has had 1,839 and small-pox 113 victims during the year. The *Collector mentions that "even with small-pox thus* raging, the people remained callous in the matter of vaccination."

Collector's para. 6.

4. There is a great decrease in the number attending dispensaries (from 32 to 24,000) which is attributed to the closing of the Belgaum dispensary. It would have been satisfactory, for purposes of comparison, if the number of out-door patients in the Belgaum civil hospital had been included, and also if it had been mentioned what were the numbers attending the Belgaum dispensary in former years. The total of fees received for five dispensaries was only Rs. 69-14-0; but Mr. Muir is sanguine enough to anticipate that these hospital stoppages will, in course of time, add considerably to the revenues.

Collector's para. 6.

5. The movement connected with the Countess of Dufferin's Fund would, but for the great personal interest taken in it by the Collector and his energetic action, have perished of inanition. Two trained midwives are now established (at Belgaum and Gokák) but it is too early to expect that their services will be in great demand. The state of the water-supply, vaccination, the treatment of lepers, and the eradication of prickly pear from village-sites and their vicinity, have all received considerable attention during the year, and are commented on at some length in the report. The system of recording whether children attending the schools are protected from small-pox, appears to be worthy of general adoption. It is alleged that forest lands, overgrown with prickly pear, border some village-sites. It is desirable for every reason that the forest line of demarcation should be moved further back. It cannot be tolerated that forest lands overrun with prickly pear *should be a source* of sanitary danger by their proximity to habitations.

Para. 6.

6. Agricultural stock and carts show a slight increase, in the latter case amounting to over two per cent., a gratifying sign of increasing trade. There is an unimportant decrease in the numbers of horses, sheep and goats. The prices of labour and cart-hire remain stationary. That cited for unskilled labour, 6 annas, in Belgaum, appears very high. Prices fell slightly, except in the case of jowári, of which the local crop was poor—but imports from Bellary and the east of Dhárwár prevented the scanty local harvest causing any material rise in price.

Paras. 7—9.

7. The exertions of the Collector and of those serving under him have popularised takávi advances, and although they have been of late years abnormally numerous and large in

Para. 10.

No. 3096 of 1890.

Revenue Department.

*Camp Poona, 16th August 1890*

The undersigned has the honor to forward the administration reports o the Collector of Belgaum and of his Assistants, and District Deputy Collector.

*Mr. Muir opens his report by a discursive reference to the increase of work* in the subordinate offices and especially in the Chikod Collector's para. 2. Táluka. The obvious way of relieving the Mámlatdár would be for the District Deputy Collector, who has only two tálukas under him, to take a more direct share in the administration. Admitting much that Mr. Muir says as to the expediency of dividing the táluka into two, this is hardly the place to discuss it.

2. The crops, although they suffered in places from untimely rain, appear to have been little under the average, the spring Collector's para. 4 harvest in many parts of the district being unusually good.

3. Cholera has had 1,839 and small-pox 113 victims during the year. The *Collector mentions that "even with small-pox thus* Collector's para. 6. raging, the people remained callous in the matter o vaccination."

4. There is a great decrease in the number attending dispensaries (from 32 to 24,000) which is attributed to the closing of the Collector's para. 6. Belgaum dispensary. It would have been satisfactory for purposes of comparison, if the number of out-door patients in the Belgaum civil hospital had been included, and also if it had been mentioned what were the numbers attending the Belgaum dispensary in former years. The total c fees received for five dispensaries was only Rs. 69-14-0; but Mr. Muir i sanguine enough to anticipate that these hospital stoppages will, in course o time, add considerably to the revenues.

5. The movement connected with the Countess of Dufferin's Fund would but for the great personal interest taken in it by the Para. 6. Collector and his energetic action, have perished of inanition. Two trained midwives are now established (at Belgaum and Gokák), but it is too early to expect that their services will be in great demand. The state of the water-supply, vaccination, the treatment of lepers, and the eradication of prickly pear from village-sites and their vicinity, have all received considerable attention during the year, and are commented on at some length in the report. The system of recording whether children attending the schools are protected from small-pox, appears to be worthy of general adoption. It is alleged that forest lands, overgrown with prickly pear, border some village-sites. It is desirable for every reason that the forest line of demarcation should be moved further back. *It cannot be tolerated that forest lands overrun with prickly pear should be a source of sanitary danger by their proximity to habitations.*

6. Agricultural stock and carts show a slight increase, in the latter case amounting to over two per cent., a gratifying sign of Paras 7—9. increasing trade. There is an unimportant decrease in the numbers of horses, sheep and goats. The prices of labour and cart-hire remain stationary. That cited for unskilled labour, 6 annas, in Belgaum, appears very high. Prices fell slightly, except in the case of jowári, of which the local crop was poor—but imports from Bellary and the east of Dhárwár prevented the scanty local harvest causing any material rise in price.

7. The exertions of the Collector and of those serving under him have

Para. 10.

amount, the instalments have, in all instances, been recovered without difficulty. The recapitulation of correspondence in this and other paragraphs tends to overload the report and seems unnecessary.

Collector's para. 11.

8. Mr. Muir writes a thoughtful and interesting account of the diversion of traffic from the old to [illegible]tes by the railway, and the decline of celebrated trade centres, notably Athni, once an important central mart on a main stream of traffic, and now stranded as it were more than twenty miles from the two branches of the Southern Marátha Railway, which are the trade arteries of the country round them.

Collector's para. 13.

9. Mr. Muir gives, as in former years, a pleasing account of the condition of the people; the only cause for apprehension he sees, is the consequent increase of the population and the difficulty of meeting "the demand for food to fill the extra mouths."

Paras. 14—17 and 19.

10. The jamábandi settlements were effected within the prescribed time. There was a small increase from Rs. 14,78,557 to Rs. 14,80,128 in the land revenue. Remissions to the amount of Rs. 29,891 are reported, but they *were nominal only, and due to the* introduction of revised assessments in five tálukas No remissions on account of inability to pay were given and the whole amount was collected with an almost startling absence of pressure. Only two notices were issued to persons owing assessment and in only one case was distraint resorted to. There is a decrease of Rs. 4,800 in alienations due to resettlement of judi.

11. The table given in paragraph 17 is not in the form approved in Government Resolution No. 724 of 31st January 1887. A new one has been called for to be submitted direct to Government.

Collector's para. 18

12. The realizations from the farm for the sale of country liquor did not exceed the minimum sum guaranteed, Rs 3,15,000. The return from toddy booths, &c., was only Rs 88,740 against Rs. 1,21,000 which the toddy monopoly realised last year. This is attributed to the new system not having had time to establish itself; its advantages in many respects over the old one are pointed out

Para 20

13 There is a noticeable increase (Rs 24,640 from Rs 20,940) from grazing fees in forest land The supply of fuel to the railway is the source of another increasing item of forest revenue.

Para 21

14 There is a slight increase in income tax collections A comparison of the amount of the final demand, Rs 37,440, with that of the original assessment, Rs. 37,620 (a difference of Rs 180 only), is evidence of the thorough care with which the lists were prepared

Para. 25

15. The Collector has performed a commendable amount of personal inspection and has made a thorough and systematic tour embracing the whole district, and almost every page of his report bears evidence of the thoroughness of his administration and of the great personal pains he has taken to ensure that all instructions received from Government should be fully carried out

Para 30

16. All land which would repay cultivation has been taken up. There is indeed a large area (64,000 acres) of unoccupied assessed land, but this remains so because the cultivation of the worst land does not at present pay, according to the answers given by those most interested to the Collector, who instituted enquiries to ascertain the reason of its not being taken up

Para 31

17. The irrigation revenue from the Gokák reservoir was the largest yet realised, but the supply is limited by the necessity of keeping the guaranteed water-power for the cotton mills

Paras 35—37

18. The administration of the Mámlatdárs' Courts Act and the Magisterial returns call for little comment. The Collector and Magistrate has scrutinized a fair proportion of cases

The low percentage of convictions—30·6—is probably due to the number of petty cases compounded.

19. The attention of the District Superintendent of Police has been called to the alleged neglect of Government orders on the subject of inspections under the Arms Act by police officers.

Para. 41.

20. Of 21 police pátels holding commissions under Section 15 of the Police Act, 14 exercised their powers and disposed of 100 cases: the number is not large, but it exceeds that in any other district that has come under review.

Para. 38.

21. The local fund proceeds are chiefly spent on communication, an obligation which, all district boards find, leaves them little to spend on other original works. Almost the only subject for adverse comment in the year's administration is the large portion of the sum budgetted against (Rs. 37,500) which was, for unexplained reasons, not utilised during the year.

Paras. 42—44.

22. As municipalities form a subject for separate report, it is needless to report on them here. There are only six working. Mr. Muir's allusion to twelve out of twenty-eight being in the Chikodi Táluka in the first chapter of the report, probably refers to those proposed, with his full assent, but not yet established. His complaint in the same chapter of the work thrown on establishments by existing municipalities suggests reflections which do not seem to have occurred to him.

Para 46.

23. The attendance at schools has remained almost stationary. The Collector himself visited 89, the several officers in charge of the 1st Assistant Collector's office at different times 44, Mr. Sheppard 24, and Mr. Gurshidappa 63.

Para. 48.

24. A *judicious increase has been made to the* salaries of the hitherto underpaid assistant masters.

Para. 49.

25. Mr. Sheppard has written an interesting account of the reasons, chiefly the hostility of the sávkárs and the delay attending the disposal of applications, which deter cultivators from applying for advances under the Land Improvement Act. He has been active in inspection work, taking care to go over ground not visited the former year. His enquiry into the indebtedness of the cultivator has led him to conclusions which, compared with what is known of other districts, may be called satisfactory. His report evinces that he is an officer of ability and takes a praiseworthy interest in his charge.

26. Mr. Gurshidappa has written a concise report. He has been active in inspection duties. His praiseworthy and successful efforts to popularise advances under the Land Improvement Act are worthy of recognition.

27. Mr. DuBoulay only assumed charge a few weeks before the date for submission of the report. He appears to have done his best to utilise the short remainder of the travelling season at his disposal.

ALFRED KEYSER,
Acting Commissioner, S. D.

To,

The Commissioner, S. D.

Sir,

With reference to para 5 of my letter, No 4078 dated 1st inst, I have the honor to state that, during the year (1889/90), there were 36,199 births, and 26,735 deaths in the District. The birth-rate is 37.1 per mille; and the death-rate 27.4. The returns appear to be fairly reliable.

I have the honor to be

Memorandum from the Commissioner, S. D., No. 3167, dated 23rd August 1890
Memorandum from the Commissioner, S. D., No. 3196, dated 25th August 1890.

Submitting with his remarks the Annual Administration Reports of the Collectors of the Southern Division and their Assistants and Deputies, for the year 1889-90.

RESOLUTION.—Copies of the Commissioner's reviews should be forwarded to all Collectors The Governor in Council concurs for the most part in Mr. Keyser's remarks, and considers it unnecessary to review these reports again in detail.

2. It is satisfactory to find that with the exception of Kánara, in which the administration suffered in consequence of several changes in the personnel of the Collector, and Bijápur, in which, however, Mr Fleet took charge of the Collector's office soon after the beginning of the travelling season, all the Collectors' reports in this division are submitted by officers who held charge throughout the year and have acquired a considerable knowledge of their districts

3 On the whole it would appear that the season was good for the crops in the coast districts and moderate in the inland districts. Public health appears to have been fair except in Dhárwár and Kánara, but an epidemic of influenza prevailed throughout the division for a short period. The registration of vital statistics, though still defective in the coast districts, may be pronounced to have been on the whole satisfactorily performed in Belgaum and Dhárwár. In Bijapur the lowness of the recorded death-rate makes its accuracy exceedingly questionable With reference to the discrepancy detected by the Commissioner in the Dhárwár Collector's report, it may be observed that the correct urban birth-rate for that district, as given in the Sanitary Commissioner's report, is 45 02 per mille instead of 23 21.

4 Except in Kolába, there was a general increase of Land Revenue—material, however, in Kánara alone, in one táluka of which survey rates were introduced The most noticeable feature of the year in connexion with Land Revenue was the extraordinary ease with which it was collected in Belgaum. In no district, however, except Kánara and Ratnágiri, was much pressure found necessary Another marked feature in the Revenue administration of Belgaum was the very trifling extent to which the income-tax demand was reduced on appeal There was a considerable increase of abkári revenue in Bijápur and Ratnágiri, and a large increase in the hemp consumption of spirits in Dhárwár. In the latter district the net forest revenue decreased by about 45 per cent., but there was a noticeable increase in Kánara.

5. The Governor in Council notices with satisfaction the success of the efforts to render Takávi advances popular in Bijápur and Dhárwár. Their continued popularity in Belgaum, under Mr. Muir's supervision, was to be expected. For the coast districts these advances are generally believed to be unsuitable.

6. The completion of the Khoti settlement in Ratnágiri and that of the original survey settlement in Kánara were satisfactory features of the year.

7. It is observed that a much more favourable opinion of the work of the Circle Inspectors of the Agricultural Department is entertained by the Dhárwár Collector than is expressed in the Bijápur reports. The unsatisfactory results of tests taken in the latter district appear to have already been brought to the notice of the Director of Land Records and Agriculture. The Governor in Council concurs in Mr. Keyser's remark in the last sentence of his review of the Bijápur report.

8. The test examination by the District Magistrate of criminal cases tried by Subordinate Magistrates was very large in the Ratnágiri and Bijapur Districts, and in these two districts as well as in Dhárwár a large test was taken by Collectors of possession suits tried by Mámlatdárs. In Kánara and Kolába the number of both these classes of cases scrutinized by the District Magistrate and Collector was comparatively small. It is observed, however, that Mr. Sinclair in Kolába had heavy original and appellate criminal work. The original cases tried by him were 22 in number; Mr. Boevey in Dhárwár tried 12, but no other District Magistrate tried more than one.

9. It is satisfactory to find that the preparation of watan registers was completed during the year under review in the Kolába and Bijapur Districts and nearly completed in Belgaum.

10. It is observed that in the Ratnágiri District there appears to be a startling difference in the results of the Collector's examination of the appraisement registers and that of the Mámlatdárs. In nearly 80 per cent. of the cases examined the Collector found that the appraisement rules had not been obeyed. Mr. Todd should be requested to report if he has any reason to suppose that the Mámlatdars' inspections of the appraisement registers are perfunctory Mr. Todd should also be requested to report on the statement made in the report of his Deputy, Mr. Ajgaonkar, to the effect that the khots cut down the jack fruit trees in the lands in the occupation of the tenants. Extract paragraph 14 of Mr. Ajgaonkar's report should be forwarded to the Educational Department for consideration with reference to the remarks made therein on the schooling for Kunbis' children.

11. Mr. Woodward's remarks as to the expediency of extending the telegraphic system from Kumta on the coast to Sirsi should be communicated to the Public Works Department for remarks.

12. The Sanitary Commissioner should be requested to report on the complaint made by the District Deputy Collector, Dhárwár, that certain villages in the Navalgund and Ron Tálukás were not visited by the Táluka Vaccinator for more than a year.

13. The remarks made by Mr. Fairlie Muir as regards the non-removal of prickly pear on Government forest lands close to village sites should be communicated to the Conservator of Forests, S. C., who should be requested to give his attention to the matter.

14. The attention of the Commissioner of Customs, Salt, Opium and A'bkári should be invited to Mr. Fairlie Muir's remarks about the inefficiency of certain A'bkári Inspectors employed in the Belgaum District.

15. It is observed that in the Bijápur District the Government stallion covered only 10 mares during the year under review against 14 in the previous

year. Mr. Fleet should be requested to explain why the Government stallion has received such small patronage. If the horse-breeders in his district do not care to make use of the stallion, there are other districts where he will be welcomed.

J. DE C. ATKINS,
Acting Under Secretary to Government

To

The Commissioner, S. D.,
The Commissioner, C. D.,
The Commissioner, N. D.,
The Commissioner in Sind,
All Collectors, including the Collectors and Deputy Commissioners in Sind,
The Conservator of Forests, S. C. (with extract from paragraph 6 of Mr. Fairlie Muir's report),
The Survey and Settlement Commissioner,
The Director of Land Records and Agriculture,
The Commissioner of Customs, Salt, Opium and Abkári (with extract from paragraph 18 of Mr. Fairlie Muir's report),
The Sanitary Commissioner for the Government of Bombay (with extract from paragraph 11 of Mr. Kánga's report),
The Accountant General,
The Public Works Department of the Secretariat (with extract from paragraph 46 of Mr. Woodward's report),
The Financial Department of the Secretariat,
The Educational Department of the Secretariat (with extract paragraph 14 of Mr. Ajgaonkar's report),
The General Department of the Secretariat,
The Judicial Department of the Secretariat.

With copies of the reviews by the Commissioner, S. D., of the Administration reports of the Collectors of the Southern Division and their Assistants and Deputies.
